Conference themes for proposals:

1. Face-to-Face tutoring: traditional and active learning strategies
Examining successful traditional models such as peer tutoring and active learning strategies

2. Innovative and inclusive tutoring models in Secondary and Higher Education
Showcasing tutoring methodologies that promote diversity, inclusion, and accessibility for a range of student profiles

3. Technology-Enhanced tutoring: personalization and best practices
Investigating the impact of AI-driven personalized tutoring, virtual platforms, and blended learning models

4. Holistic student development: academic, personal, and socio-emotional growth
Exploring approaches that support students' emotional intelligence, resilience, and well-being

5. Communication in tutoring: engagement and trust building
Understanding the role of interpersonal skills in fostering student engagement and trust in the tutoring process

6. Tutoring and academic success: retention and dropout prevention
Strategies to improve academic outcomes, reduce dropout rates, and promote student persistence in Higher Education

7. The future of tutoring in Higher Education: trends and challenges
Predicting emerging trends in tutoring methods and discussing their implications for student learning and professional development

Submission guidelines:
Each participant can submit up to **one paper** and **one poster**.

Posters and communications can be submitted in Portuguese or English. The presentation, however, must be delivered in both languages.

Each submission must include the name(s) of the author(s), their institutional affiliation and the email contact of the corresponding author.

Submitted abstracts should be between 250-300 words.

The structure of abstracts relating to empirical studies should be as follows: introduction and objectives, method, results and conclusion. Each proposal should include 3 to 5 keywords.

Authors should indicate their order of preference for the presentation format of their work (oral communication or poster), and the Scientific Committee will make the final decision on this.

The submission of scientific papers implies the authors' consent to cede the exclusive right to publish and disseminate the content of the proposal by the means deemed appropriate by the Congress Organising Committee.

Communications will last 15 minutes. Posters will be displayed during the day of the conference with a time slot in the programme for discussion of the papers.

Authors will be notified of the acceptance of proposals by 20 May 2025.

There is a possibility that the work will be published. More concrete information will follow soon.

Proposals must be sent **here** by **16 May 2025**.
